

Smart Walking Stick

Intelligent next-generation cane for the elderly

This award-winning walking stick provides an emergency alert system and offers peace of mind for seniors in your care. Connected to a smartphone, the stick can tell you the location and send alerts to designated people in emergency situations where the user has fallen over. A call-for-help button is also available for users to get immediate emergency assistance if needed.

Application

Elderly homes | All seniors

Fall alert and notification
