

English Robot Teacher

Immersive native English learning program for kids

This blocky coding-enabled robot assists kids in practising coding and learning native accents through tailor-made programs including daily chats, phonics and more. Parents are able to track and understand the learning progress of their kids. Learning content updates daily through cloud to allow easy access.

Application

Learn at Home | Tutoring Class

Tailor-made learning programs

Support multiple languages with native accents and simple coding

Track learning progress

Interact with kids for guidance and engagement
