

Smart Event Management

One-stop event management tool

This event management tool facilitates comprehensive solutions for event organisers. Its digitalised workflow helps reduce paperwork and enhance efficiency. Event customisation supports many different interactive onsite activities for participants such as live polling, photo printing and lucky draw.. Post-event reports are made available for review to improve planning for future events.

Application

Exhibitions | Seminars | Corporate Events | Press Conferences

Centralised and digitalised workflow starting from registration to post-event review in one single platform

Customise events to enrich participant's experience

Real time onsite event monitoring and management

Maximise efficiency and reduce operating costs
