3 International Lucky Draw

Brings Together Users of the 3 Global Network

3G Video Phones with 12-month Free 3 Services to be Won

Your smart decision to register with 3 can now benefit friends and family living overseas in 3 network countries

3 has launched an International Lucky Draw to give away six 3G video phones with twelve-month free 3 services. This promotion follows on from recent successful events which have included free VIP tickets to the Real Madrid and Liverpool matches.

For this latest promotion, Hong Kong 3 registrants are invited to take their chance to win 3G video phones with twelve-month free 3 services for themselves and a similar prize* for their friends or relatives living overseas in a 3 network country. With 3 International Video Call Service, 3 users can actually see and hear the persons they are talking to, live, making distance no obstacle to intimate communication. 3 International Video Call Service will be available to selected 3 network countries including Austria, Australia, Italy, Sweden and the UK.

To enter the lucky draw, local 3 registrants can simply visit the 3 International Lucky Draw page at 3 website (www.three.com.hk) and follow the simple steps to nominate a family member or a friend living in a 3 network country. Registrants who do not wish to nominate a friend or relative living overseas to win a prize can still enter the lucky draw. The draw takes place on 1 September, 2003, from lucky draw entries received prior to midnight on 31 August, 2003.

* The overseas prize may vary between 3 countries. The overseas residents you nominate may have to satisfy conditions of their local 3 country to be eligible for prize redemption.
