3 Hong Kong launches enhanced 3 Printing Service

3-3G- and 3-Dualband- customer can now turn favourable images into calendars, photo stickers and photo prints

With the advent of a new year, wouldn't it be great to be able to print your own custom-made 2005 calendar? 3 Hong Kong launches a calendar printing service exclusively for 3-3G- and 3-Dualband- customers, allowing them to print memorable images onto photo stickers or photo prints, or to turn their favourable images into calendars. It takes just a few simple steps to own the most collectable and personalised 2005 calendar!

3 Printing Service provides customers with a choice of two colourful background designs for the 2005 calendar, namely, a set of six "Disney Mobile Calendar 2005", and a set of four different graphics specially designed by 3 Hong Kong. Customers can personalise the calendar by adding their own unique images to the chosen design. Printing a calendar is as simple and easy as printing photo stickers and photo prints. Customers need only send the favourable images on their mobile phone to 503333 via MMS, and then follow the instructions for placing a calendar printing order as displayed on the mobile phone screen. They can check their order records and the printing progress using their mobile phone whenever they want to. Calendar printing requires only three working days. Customers may choose to have their printed products mailed to the billing address or another local address, to have them delivered by a courier, or to collect them from one of the six designated 3Shops.
