

09 December 2011

**3 Hong Kong and NTT DOCOMO join hands
to launch Brand-new Mobile Service Platform - Planet 3 Widget**

Innovative mobile platform delivering news updates on the go

Hong Kong, 9 December 2011 - 3 Hong Kong, the mobile telecoms and residential fixed-line operator of Hutchison Telecommunications Hong Kong Holdings Limited (HTHKH, Stock code: 215), today announced that it has partnered with NTT DOCOMO, INC. to establish a new mobile service platform - "Planet 3 Widget", enabling Android and Symbian users to receive free updates on the latest news, daily information and special offers at all times, without having to browse the Internet or visit any market stores. No matter where the users are, the updates will automatically and instantly be delivered to their Android or Symbian smartphones.

1: Data roaming charge applies if the service is used outside Hong Kong.

The fabulous information to be updated automatically and on display via "Planet 3 Widget" includes 3 Hong Kong's hot offers and the latest service promotion; local, international and financial news, together with updates on technology, dining and lifestyle, keeping customers abreast of the world anytime, anywhere while on the go.

Simple and Easy Installation

Simply visit the Planet 3 portal and download "Planet 3 Widget" for free. Customers can enjoy greatest flexibility to opt in or opt out of the widget anytime.
