

Vehicle Surveillance Solution

Smart Vehicle

Evidence is needed when accidents happen. A vehicle surveillance solution helps fleet management to protect the fleet and staff from unreasonable claims in accidents.

Benefits

- Enable real-time remote monitoring for fleet and employee safety
- Strong evidence against insurance claims and legal liability in court cases

Key Features

- Weatherproof (IP68 / IP69K) camera which can be installed inside and outside the vehicles
- Real-time video recording, streaming and location tracking
- Support up to 8 cameras in a vehicle
- Large 1 TB storage with rugged design (MIL-STD-810G certified) to stand for vibrations in the vehicle
- Patented fan-less storage design for operation under high temperature in the vehicle
- Videos can be downloaded wirelessly as evidence
- Large backup battery enables video capture for a short period of time even when electricity is cut off by accident
