

Apple Device Enrollment Program (DEP, part of Apple Business Manager)

Device Management

Apple Device Enrollment Program provides automated wireless device setup and automatic enrolment into your chosen Mobile Device Management (MDM) platform. This reduces the need for manual configuration and ensures each device is correctly set up, secured and controlled. Simplify your device deployments while maintaining their security and management. DEP provides a fast, streamlined way to deploy organization-owned iPad and iPhone devices, Mac computers, and Apple TV purchased directly from Apple or participating Apple Authorized Resellers or carriers.

Benefits

- More efficient device deployment to employees
- Ensure device management enforcement
- Reduced workload benefited from zero-touch configuration
- Better management by wireless supervision
- No additional setup. The device management is enrolled automatically

Features

- Enforced MDM deployment to enhance security. Users can't opt out of this even if the device is factory reset.
- Integration with your MDM to assign user profiles automatically to individual or groups of devices
